**DETAILED ACTION**

***Election/Restrictions***

1. In the preliminary amendment filed on August 16, 2001, applicant cancelled claims 2-10 and added claims 11-24. However, claims 1-11 are found to the claims originally filed. It is unclear if applicant meant to cancel original claim 11 or not. The examiner re-numbered the added new claims as claims 12-25 in the preliminary amendment.

It is noted that claim 11 raises the issue of 112 2<sup>nd</sup> paragraphs; applicant needs to clarify this issue in response to this action.

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 12-22, drawn to a method of producing a substrate for a plasma display panel.

Group II, claim(s) 11, 23-25, drawn to an assembly of mold for making a substrate for a plasma display panel.

Art Unit: 1734

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features (mold obtained by a photo-setting components and photo-setting initiator) for the following reasons: for group II the special technical features does not define a contribution over Wojcik (US 4,668,607). Wojcik teaches (see column 3, lines 36-45, columns 7-8, lines 50-68 and 1-1-16 respectively, column 8, lines 51-59, Figs 1-9 and claims 1 and 3) photo-fabrication of the master relief patterns in the production of mold (photo-fabricating from photosensitive compositions and photo-initiators).

4. A telephone call was made to Robert Pechman on 01/05/2004 and 01/09/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yewebdar T Tadesse whose telephone number is (571) 272-1238. The examiner can normally be reached on Monday-Friday 8:00 AM-4: 30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on (571) 272-1226. The fax phone
